Speech Recognition en NLP

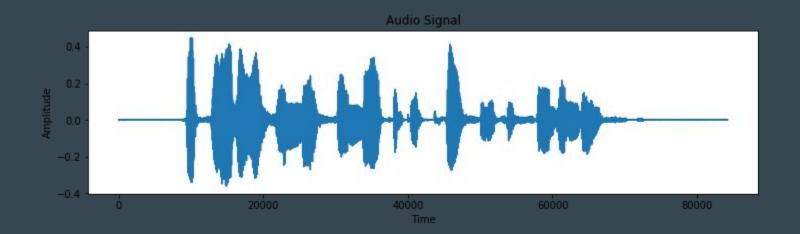

•••

KeepCoding - Bootcamp de Big Data & Machine Learning

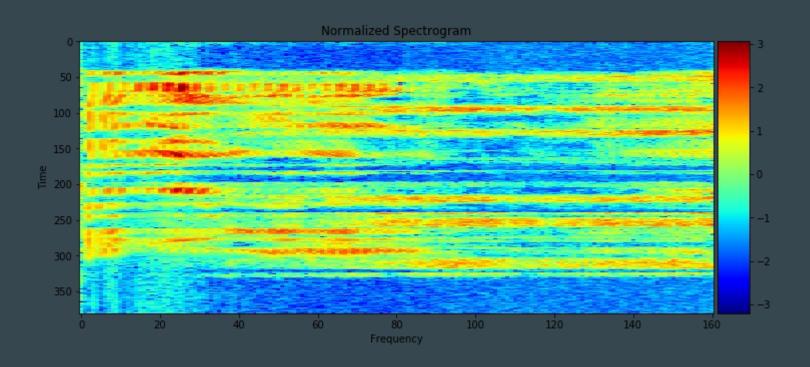

Introducción

- ¿Cómo podemos convertir audio a texto? -> ASR
- ¿Métodos clásicos? -> Mel-Frequency Cepstral Coefficients (MFCCs)
- Combinación de diferentes tipologías de DNN

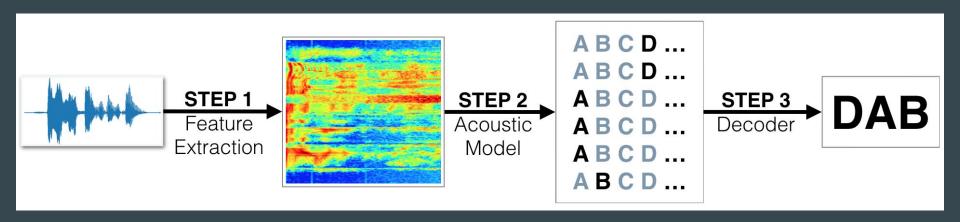

Representación del audio

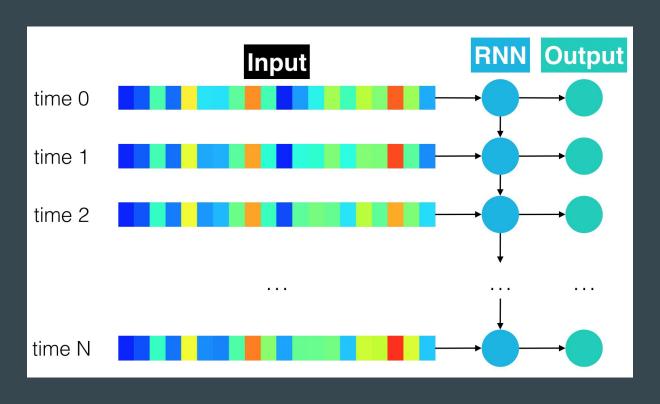

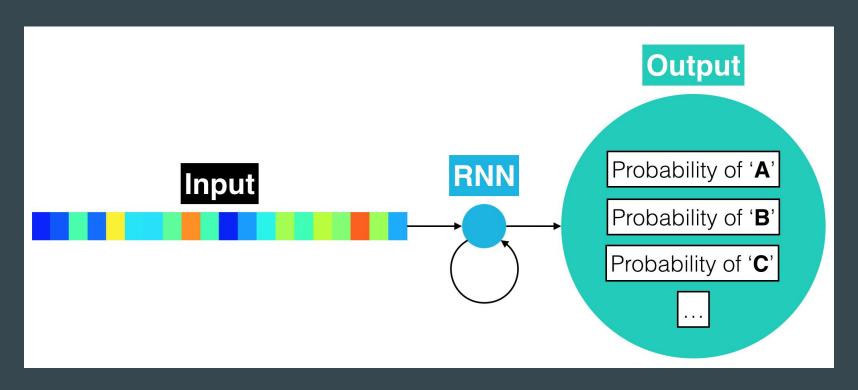

Representación del audio

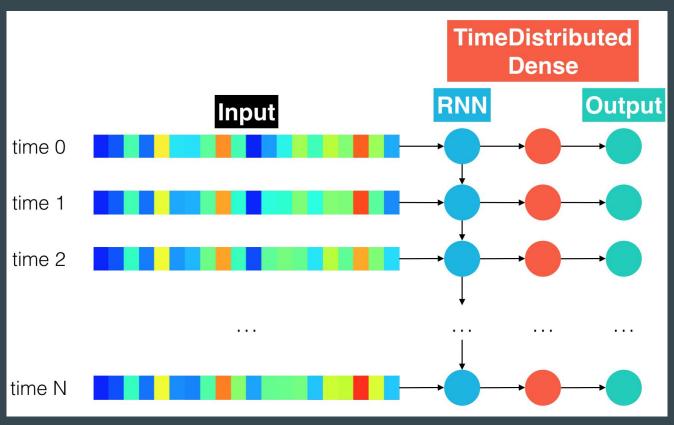

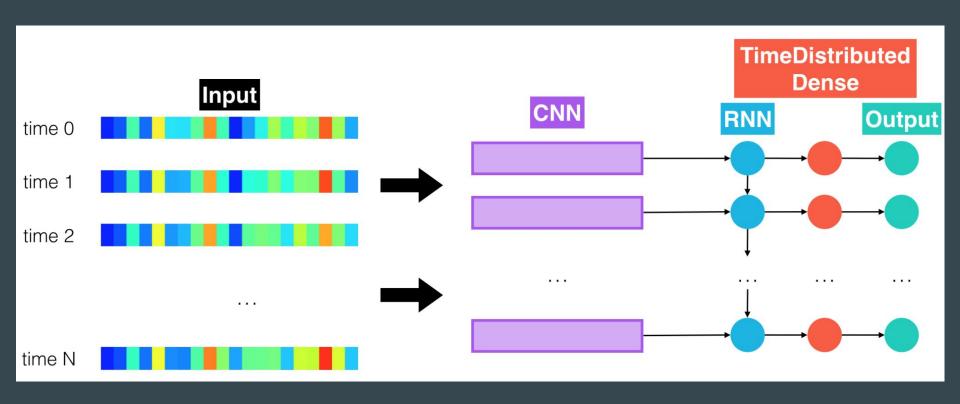

Procesamiento

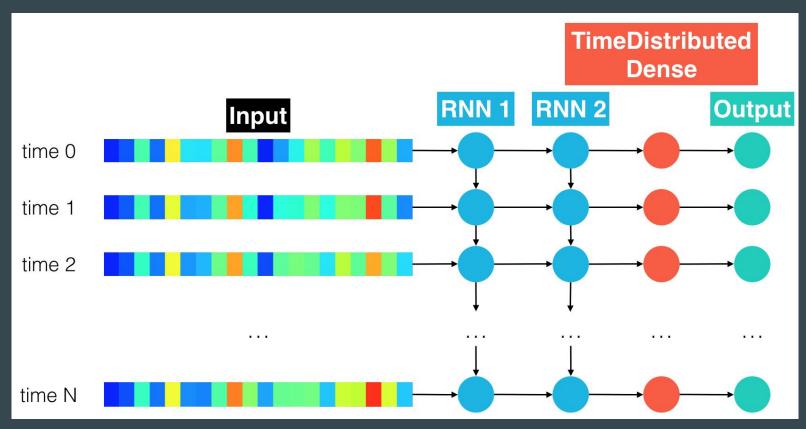

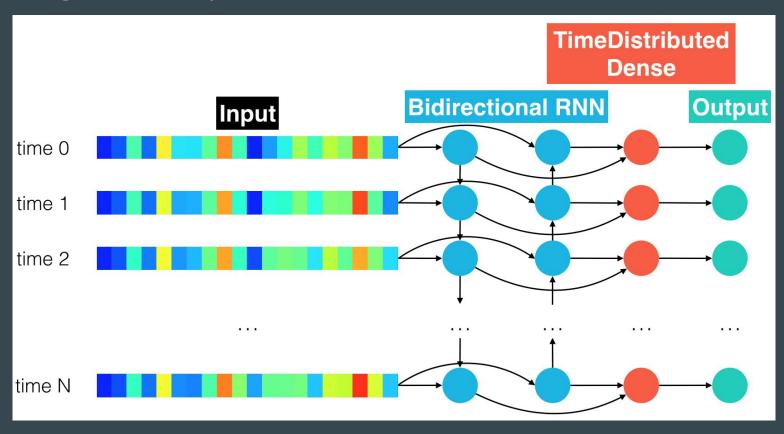

Post Procesamiento

- Aplicación de Spelling Corrector
- Eliminación de ruido y artefactos
- ¿Posterior modelado?
